

Transition Committee Recommendations

I. HISTORY AND PURPOSE

The purpose of the Transition Committee is to deal with practical matters arising from a requested status change of the Girls' Hockey Team. The Girls' Team was admitted into the Booster organization four seasons ago with the proviso that the organization was simply a place for that team to hold its money, and that the team was to be administered as a "pay as you play" team. The Girls' team is now seeking sanctioned club team status from Greely High School, and that impending change, coupled with the growth of the Girls' program, itself, warrants recommendations of how we will do business as an organization within this new structure. The recommendations of the Transition Committee are listed below.

II. FUND RAISING

A. All fund raisers subsequent to this year's (2004) Golf Tournament, shall have the opportunity for a maximum of (2) co-chairs, one player's parent each from the Boys' and Girls' High School programs. A parent with a player on both teams may choose their affiliation for purposes of co-chairing a fund raiser. Each program will be asked for a volunteer co-chair prior to an initial meeting for that fund raiser, giving equal opportunity for both teams to be represented.

B. In recognition of the work done by the committee chairs, 10 percent of the net profit of a fund raiser will be credited to the program(s) represented by the co-chairs. If both programs are represented, then the 10 percent will be divided in half. If only one team is represented, that team will receive the full 10 percent of net profits. This system is suggested to promote participation of both teams in overseeing fund raisers.

C. It will be the duty of the co-chairs of a fund raiser to determine a

plan/formula for allocating to each program the remaining 90 percent of net profits of that fund raiser. (Example: for the Golf Tournament it may be based on the percentage of teams registered that are brought in by each program). The co -chairs will present their plan to the membership for discussion and a vote.

D. For the 2004 Golf Tournament, all profits from teams, contests, and raffle tickets will be allocated to each program in a percentage equal to the percentage of total teams entered by that program. All tee sign profits will be allocated to the program which the parent selling the sign represents. Alumni signs will be allocated to the program indicated by the alumni or with no indication, the program for which the alumni formerly had a player.

III. MEMBERSHIP AND VOTING

A. Non-budgeted expenses for the High School Boys Team will be voted upon by dues-paying parents of players of that team.

B. Non-budgeted expenses for the High School Girls, Team will be voted upon by dues-paying parents of players of that team.

C. Dues-paying parents who have players on both High School teams, may vote on non-budgeted expenses for both teams.

D. Neither dues-paying alumni parents, nor dues-paying Middle School parents may vote for non-budgeted items. These parents, as well as all dues-paying parents of High School players on either team, may vote on all other Booster issues.

E. All dues-paying Booster members may vote on the allocation of funds for fund raisers, whether or not the co-chairs of that fund raiser represent both high school teams.

IV. ORGANIZATIONAL GENERAL EXPENSES

A.. The overhead expenses of the Booster organization will be allocated as follows for each program's budget:

- 50 percent for the Boys' High School program
- 40 percent for the Girls' High School program
- 10 percent for the Middle School program

B. All dues-paying members of the Booster organization may vote on general expenses/overhead of the organization.
